

USDA-CSREES 2006 National Water Quality Conference

[Water Programs in the Pacific Northwest](#)

This is a regional poster. This poster highlights water quality programs in region X. Highlighted programs/projects include: (1) watershed theme-based satellite conference, (2) PNW Water Updates, (3) agency coordination/cooperation, (4) domestic water, (5) water monitoring workshops, and (6) inter-progammatic integration. We will also highlight the integration in Northwest Indian College (1994 institution) and water research institutes into regional programming.
