

New England Regional Water Program  
Advisory Committee Members  
February 2007

Purpose: We are creating the advisory committee at the request of CSREES to provide the New England Region Water Program with a formal network of expert advisors who can provide input on an ad hoc basis. Our expectations would be tailored to each individual member. In all cases, we would provide a member of the advisory committee with briefing materials on the goals, structure and activities of the New England Program, with emphasis on programs that relate to their expertise.

We expect that advisory committee members would be contacted on an ad hoc basis to help us gain perspectives on specific problems or help us improve connections to partners and stakeholders. Each advisory committee member is linked to a specific individual related to their interests – either a Water Quality Coordinator or a focus area group leader.

**Advisory Committee Members**

Ralph Abele, Instream Flow Coordinator  
US EPA – Region 1  
1 Congress Street  
Suite 1100  
Mail Code: CWQ  
Boston, MA 02114-2023  
617-918-1629
